

MIKE'S PLUMBING AND ELECTRIC, L.L.C.

We're Here To Meet Your Plumbing and Electrical Needs

We are a family owned and operated business understanding what it means to maintain personal relationships with our customers.

We provide quality service, products and parts in the course of our work and our service. We offer cost savings analysis on plumbing and electrical jobs where applicable.

Health Hazards and Threats

During the course of our estimate, investigation and/or work, should we encounter anything that is deemed a potential health hazard (mold, reptiles, other) or threat to the customer or their family we will notify the customer immediately.

Recommendations

Many times we encounter individuals, families or commercial organizations that wish to have their lavatories re-evaluated based on their families use, or their clients use of the facilities. For example if the average age of the user is over 30 or certain disabilities are found in the users one may find that elongated or taller commodes are required or more comfortable.

Minimum water use or if clogs are a particular problem there are products for you. Ask and we'll find the right product for you.

Call Mike for all your plumbing and electrical repair needs. (334-714-7139)

Plugged pipes with grease and food particles.
